

KEITH JANI

SOFTWARE DEVELOPER | FRONTEND DEVELOPER

PRACTICAL EXPERIENCE

PROFESSIONAL PROFILE

I am a motivated Software Development student at Uncommon.org with a strong interest in building useful, responsive and user-friendly digital products. I enjoy turning ideas and problems into practical solutions through code, design and continuous learning. With around 4 months of practical experience across 6 software projects, I have gained hands-on exposure to frontend development, databases, version control and real-world problem solving. I am now looking for an internship opportunity where I can contribute to a professional team, learn from experienced developers and continue growing into a confident software professional.

TECHNICAL SKILLS

FRONTEND DEVELOPMENT:

HTML5, CSS3, JavaScript, TypeScript, React.js, Responsive Web Design, User Interface Development.

DATABASE & DEVELOPMENT:

Database Management Systems, Database Fundamentals, API Fundamentals, REST API Concepts.

DEVELOPMENT TOOLS:

Git, GitHub, VS Code, Vercel, Render.

PROFESSIONAL STRENGTHS

- Problem Solving
- Adaptability
- Attention to Detail
- Continuous Learning
- Clear Communication
- Creativity
- Team Collaboration
- Resilience

PRACTICAL EXPERIENCE

SOFTWARE DEVELOPMENT — PRACTICAL EXPERIENCE

Uncommon.org / Personal & Academic Projects

Approximately 4 months

- Built and deployed practical web applications using modern frontend technologies.
- Develop responsive interfaces using HTML, CSS, JavaScript and React.
- Practiced TypeScript and component-based development.
- Used Git and GitHub to manage and track development work.
- Worked with database management concepts and structured data.
- Debugged development problems and improved application functionality.
- Turned project ideas into working digital products through planning, development and testing.
- Continued learning through projects, online certifications and practical software development exercises.

UNCOMMON.ORG • Software Development Program

Harare, Zimbabwe

Intensive software development program focused on practical web development, frontend technologies, databases, version control and real-world project experience.

GLENVIEW 1 HIGH SCHOOL • O-Level Certificate

Harare, Zimbabwe

Completed O-Level secondary education with a strong foundation in core academic subjects and problem-solving skills.

EDUCATION

COURSERA

- Developed responsive web applications using HTML, CSS, JavaScript and React.js with a focus on clean, user-friendly interfaces.
- Built dashboards and forms that capture, validate and display data efficiently.
- Integrated frontends with REST APIs for seamless data exchange and functionality.
- Designed and managed databases using SQL and database fundamentals.
- Used in various industries and creative development workflows.
- Deployed web applications using Vercel and Render.
- Solved real-world problems through code, improving logic, performance and user experience.
- Actively learning, improving skills and building confidence as a frontend developer.

CAREER OBJECTIVE

WHAT I BRING

- Willingness to learn: Ready to learn from experienced developers, accept feedback and continuously improve.
- Builder's mindset: Enjoys learning by creating practical digital products.
- Curiosity & persistence: Willing to investigate problems, learn from mistakes and keep improving.
- Desire to grow: Looking for an environment where contribution, membership and continuous development can happen together.

CONTACT

OPEN TO SOFTWARE DEVELOPMENT & FRONTEND INTERNSHIP OPPORTUNITIES

Professional and academic references available upon request.

To secure a Software Development or Frontend Development internship, where I can apply my current technical skills, gain real-world industry experience, and work with a diverse range of experienced professionals.

My long-term goal is to become a well-rounded software developer who can combine strong technical thinking with good design, problem solving and an understanding of the people who use the products I build.
